

Stop the Lawless-Hate!!!

★1 Meltdowns of Japan and the UN

Illegal sharing (siege) spread around the world at 2005.

Gist of the related cases are in Case-List at <https://alien1961.xyz>.

Japan's irreparable sin

Long-term boycott (go home campaign) impacted my taxi business.

Also it caused the Great Depression of night metropolitan.

The Metropolitan Police Department ignored my 2009 victim report, then my aunt died mysteriously just on the response deadline day.

Of course it must be a murder for an implicit threat to me.

I guess underworld might have taken action as the report leaked.

But if the police did, it's unfair execution of unrelated third party.

Furthermore, It's a national meltdown with fake judgments by ignoring my plea.

Thus, my 65 civil and 72 criminal judgments are all crimes.

ID of each judgment is in Civil-Action-List and Criminal-Action-List.

Their ignoring my plea can be proved easily by comparing G (My-Genuine-Appeal) and J (Judgment).

Japan is a state whose courts have completed Lawlesize.

That is, a state who couldn't finally stop the hate, and more cannot be expected to recover on its own from now on.

Thus, Japan should naturally be expelled.

Rather, Japan should be dismantled and divided as dangerous state.

the UN's irreparable sin

The UN has ignored my report twice and harbored Japan.

Twice reports in 2018 and 2021 based on HRC resolution 106. of 5/1.

And it's the only reporting method for all UN member states people.

The resolution stipulates notify to the author at each stage.

But I have never received the notify at all.

In this way, it's so anti-treaty by the framer.
