

# Stop the Lawless-Hate!!!

## 6 Background of the Lawless-Hate

★Woman's mysterious act waiting on my way home.

### The beginning

Around 2003, I was working in overseas operation department of the Sumitomo Trust & Banking.

I was over 40 year old and had a wife and kids.

Around 9pm, when I headed to the coat corner to go home, the first woman followed me.

I had just moved there so first meeting but she was silent.

She seemed to want to go with me, but I couldn't find the meaning.

★Finally, it was too unexpected so I wasn't sure what to do.

Details are following ① to ⑫, I thought as below.

「She seems to have approached me to go with me. But, I have never speak with her. I can't find her use. While I don't want to talk to her carelessly and be sexually harassed. There is no way to confirm. It seems to be something difficult to say and lady's advance is welcome, but it's an exception, and originally I don't know what it is. Sex is not the only relationship between man and woman, and originally woman don't have active sexual desire, People don't have sex easily, and especially woman have risk of pregnancy due to their body structure, so there is no convenient

woman suddenly ask for sex. Since I can't be sure, I need to get away from her quickly. Let sleeping dogs lie.]

I want to know what I should do then.

It repeated on 2nd and 3rd nights, and then I found it "lady's advance" when the first woman using a decoy man to sex.

I call it woman's revenge mode. I regret my insensitivity.

also I talked to the second woman in revenge mode and she falsely accused me as sexual harassment.

The third woman deceived me.

She repeatedly move away, so I gave up.

All three of them repeatedly used decoys.

Suggesting, "As this, many men want to sex with me.

I also ignored them suggesting, "How disgusting. don't approach me originally if everyone is welcome."

I grew resentful as their using decoys.

Soon, I was surrounded within the company so I quit in 2004.

Also, there were two further circumstances at the office.

I omit the details because each is hard to explain.

First, I decided not to have an office romance due to the influence of K, who had cheated on my ex-wife.

Second, I morally prioritized O, earlier "lady's advance".

**I was deceived many times by Woman's mysterious act.**

Also on after that "night crawling?" act, they repeated knocking on my window and soon hiding so can't find anyone there.

## My character

Self-loathing, timid, dull, indifferent to others, subjective, foreign.  
destructive pathologically Mr. Dissonance who increases friction  
interacting with others.

### ① Self-loathing

One's looks is deceptive

I can never image myself to be a target of "lady's advance".  
I don't think my looks good, and I have hardly be praised about it.

### ② timid

I was afraid to be a sexual harassment due to talking to her.  
In fact, see the second woman's case.  
In those days, sexual harassment prevention seminar was common,  
and women were always the victims.  
However, this makes people thinking all women hate sex.

## My view of human

### ③ ★ Originally I don't know about women's mysterious act.

Basically it's others matter

I didn't know any actual cases, so I assumed it as an exceptive act.

### ④ So I don't know how to respond it.

### ★ ⑤ Woman don't have an active sexual desire.

I didn't know woman who have sexual desire, so I got it exceptive.  
For example, prostitution is women.  
People think they take money because they dislike sex.

## ⑥Women don't have sex easily.

Basically even if women feels good too, they have a risk of pregnancy.

## ⑦People don't have sex easily.

It's not always a one-off, so you may end up with any ties.

## ★⑧Relationships between man and woman isn't only sex.

I think friendship or humanship is also common.

"Is there love there?" is a famous phrase.

"Your aim is my body, aren't you?" is woman's common word to insult man's under motives.

For example, I would often sing karaoke all night at 1:1 with staff or customer of YarukiJyaya pub chain.

Since it's an unguarded situation for woman, she usually seems to be prepared for sex.

But, being unavoidable isn't active will.

She might just surely want to do karaoke. I wouldn't force sex.

After I gave her 10,000 yen and watched her leave in a taxi, she yelled "You idiot!!" from the window.

A girl yelled "fuck, fuck." I never thought she want at there.

I thought even these were exceptions.

## ⑨ I never expected a hate for not doing anything.

I thought a woman resent man because she is robbed chastity, so there is no room for resent if man don't sex.

A woman always being destined partner of some else man, and she lose chastity by sex.

So, as a same man, I tried to be cautious to sex. That's my morality. Therefore I couldn't understand the taboo nature still more. Shame or loss, it's all my freedom. But actually it's exact opposite, women seem to feel their sexual charms has been denied.

## My view of life

### ⑩★fateful encounter is once in a life

A longing born for each other.

I'm jealous and possessive, so I can't bear my fateful partner having sex with other man.

My fateful partner would feel the same, so we need to be stoic.

This strong chastity is my defining characteristic.

For example, it's honorable to be memorial target of a woman who is about to retire for marriage, but it's a betrayal of her chastity to a man who should be her steady. A sad reality of women.

So to speak, it's women's confess marriage as grave, so as a man, I cannot forgive the cheating.

Originally why does they need memories?

A woman who loses her virginity casually is out of matter.

That is my humanity and morality.

## My moral

### ⑪ Sex is negative.

I've only had sex with two amateurs, including my ex-wife.

The second woman was a customer at Yarukijyaya around 2007.

She talked me, so I was sure her "lady's advance".

But even this she didn't say clearly sex.

**(12) I'm married with kids, so I was unsure about ethics.**

Originally am I a subject of the proverb?

## ★Considerations on proverb "Man must not refuse lady's advances."

From my experience, it seems to mean "When woman desires sex, man should always accept it."

I first heard it in middle school, but I couldn't understand it.

Originally I don't intend to rebel against this proverb, and there is accepted example.

Siege (illegal sharing) is always violent, so I simply resisted.

**A No definition of "lady's advance"**

We can't respond if don't find what it is.

**B No basis for respecting in woman's case only.**

"lady's advance" is almost under motivation.

Thus to belittle man's under motivation is gender discrimination.

Also, chastity cannot keep if woman often become "lady's advance".

**C It ignores humanity.**

**D It ignores "type".**

That is, it's forcing orgies.

**E ★ They are hiding the taboo nature.**

It seems to hide illegal sharing and ★Women's Black-List .

However, it's not thorough, so you can't blame my stupid.

**They are pretending the proverb outdated but it's actually  
a ★death-taboo.**

★It's a real sneak attack.

It's like a trap when you find out, it's too late.

They won't publish and more hiding it, so it's naturally not blamable.

**A comparison at "lady's advance" and under motive**

Man's under motive is aiming only for sex, even if he is not serious.

While man's under motive targets almost women, woman's "lady's advance" targets her type only.

If it's her type, it inevitably may develop into a serious love owe to how things go, so it's not always under motive.

Or it should be called a love at first sight?

I agree that there aren't many men who can make her climax, so shouldn't miss the chance, but it's the same for man.
